-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13 and 25-36 are, drawn to *the subcombination of a handling system**, classified in class *221**, subclass *13**.
 - II. Claim 14 is ***, drawn to *a method for loading**, classified in class **221*, subclass *1**.
 - *III**. Claims 15-24 are***, drawn to the subcombination of *a carrier for treating or inspecting a conveyed load**, classified in class *198**, subclass *340.*
2. Inventions of group I and **of group III* are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention *of group *I* has separate utility such as *the handling system could transport any other type of article other than the container of group III having a fluid substance*which contents would be stirred or mixed. The article in group I could be a solid object not having a fluid substance*. See MPEP § 806.05(d).
3. Inventions of group II and *both the apparatus of groups I and III** are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case **the method for loading could be preformed by hand as the loading and transporting of reagents could

be preformed by manual manipulation of the reagents ,as well as, the testing of samples with the reagents.

4. *Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth W Noland whose telephone number is (703) 308-3200. The examiner can normally be reached on Tuesday- Friday ,each week.
